

COMMUNITY DEVELOPMENT COMMISSION OF THE COUNTY OF LOS ANGELES Selects Securance Consulting

Tampa, FL – April 2011 – Securance Consulting, a Professional Services firm delivering independent technology risk consulting and Information Technology (IT) auditing services, today announced that the Community Development Commission of the County of Los Angeles (CDC) has selected Securance for select IT audit initiatives.

The CDC was created in 1982 when the Los Angeles County Board of Supervisors consolidated the Housing Authority, the Community Development Department, and the Redevelopment Agency. The CDC continues to serve in the County of Los Angeles as an Affordable Housing and Community and Economic Development Agency. Their wide-ranging programs benefit residents and business owners in unincorporated County areas and in various incorporated cities that participate in their programs. For Fiscal Year 2010-2011, the CDC has a budget of \$494 million and a total staff size of 655. Over 80 percent of the CDC's funding comes from the U.S. Department of Housing and Urban Development. For more information on the CDC, visit their website at www.lacdc.org.

Information technology auditing has become a critical component in risk management. As technologies continue to advance they are becoming the underpinning of organizations and their business processes. Securance Consulting assists organizations in managing the risk associated with technology in these areas: IT Policies & Procedures, General Computer Controls, Application Controls (i.e. ERP, CRM, SCM, MAN), Software Compliance, Data Center Controls, Network Security, Wireless Deployments, Business Continuity and Disaster Recovery.

About Securance Consulting

Securance Consulting is a professional services firm delivering independent, full-service IT and internal audit services, specializing in the niche market of technology risk consulting. The company, founded in 2002, is headquartered in Tampa, Florida and serves the Continental U.S.A.

Securance is staffed by audit consultants who have diverse backgrounds within the audit and information technology fields. They average 10-12 years of experience and hold certifications such as CPA, CIA, CISA, CISSP and BCP.

The company serves several major industries including automotive, communications, consumer products, defense, energy and utilities, entertainment and media, financial services, government, and healthcare to name only a few.
