

Nemours Selects Securance Consulting as its Internal Audit Co-Source Partner

Tampa, FL – July, 2008 – Securance Consulting, a Professional Services firm delivering independent risk consulting services, today announced that Nemours has selected Securance as its Internal Audit co-source partner.

The Nemours Mission is “To provide leadership, institutions, and services to restore and improve the health of children through care and programs not readily available, with one high standard of quality and distinction regardless of the recipient’s financial status.” Nemours employs 4,100 professionals, including more than 420 specialty and subspecialty physicians and surgeons. One of the nation’s largest health systems dedicated to the health of children, Nemours cared for 239,000 individuals in 2006 during more than 560,000 outpatient visits, 11,000 hospital admissions to our own Alfred I. duPont Hospital for Children (AIDHC) as well as an estimated 25,000 to affiliates; and 47,000 surgical procedures. For more information on Nemours visit the Company’s website at www.nemours.com.

Internal auditing has become a critical component of risk management. As organizations continue to advance become more complex the internal audit function becomes more important to ensuring an adequate risk management strategy. Securance Consulting assists organization in managing their business, financial and technology-related risk.

About Securance Consulting

Securance Consulting is a professional services firm delivering independent, full-service IT and internal audit services, specializing in the niche market of technology risk consulting. The company, founded in 2002, is headquartered in Tampa, Florida and serves the Continental U.S.A.

Securance is staffed by audit consultants who have diverse backgrounds within the audit and information technology fields. They average 10-12 years of experience and hold certifications such as CPA, CIA, CISA, CISSP and BCP.

The company serves several major industries including automotive, communications, consumer products, defense, health services, energy and utilities, entertainment and media, financial services, and government to name only a few.
