

## **GENTEK, INC. Company Selects Securance Consulting for Sarbanes-Oxley IT Compliance**

**Tampa, FL – September, 2008** – Securance Consulting, a Professional Services firm delivering independent technology risk consulting and IT auditing services, today announced that GenTek, Inc. has selected Securance to assist them with their Sarbanes-Oxley compliance initiatives.

GenTek, Inc., through its subsidiaries, manufactures industrial components and performance chemicals in primarily the United States and Canada. It operates in three segments, Valve Actuation Systems, Performance Chemicals, and Corporate and other. As of fiscal year-end 2007, GenTek generated \$608 million in gross revenue. For more information on GenTek (NASDAQ: GETI), visit the Company's website at [www.gentek-global.com](http://www.gentek-global.com).

General computer and application controls have become a critical component in complying with Sarbanes-Oxley section 404. Securance Consulting assists organizations in assessing the design and operating effectiveness of IT controls in these areas: IT policies & procedures, change/patch management, network | operating system |and database security, physical & environmental data center controls, end-user computing, and SOX significant application controls.

### **About Sarbanes-Oxley**

The Sarbanes-Oxley Act (2002), named for the two Congressmen who sponsored it, was passed in response to accounting scandals surrounding Enron and other companies.

Enacted to restore public confidence and trust in our nation's corporate sector, the Act demands greater accountability for financial management and reporting practices for companies registered with the Securities and Exchange Commission (SEC). The Act charges management with the responsibility for annually assessing the design and operating effectiveness of internal control over financial reporting and requires external auditors to annually audit and issue a report on the effectiveness of the company's internal controls.

### **About Securance Consulting**

Securance Consulting is a professional services firm delivering independent, full-service IT and internal audit services, specializing in the niche market of technology risk consulting. The company, founded in 2002, is headquartered in Tampa, Florida and serves the Continental U.S.A.

Securance is staffed by audit consultants who have diverse backgrounds within the audit and information technology fields. They average 10-12 years of experience and hold certifications such as CPA, CIA, CISA, CISSP and BCP.

The company serves several major industries including automotive, communications, consumer products, defense, energy and utilities, entertainment and media, financial services, and government to name only a few.
