

# Cybersecurity as a Service (CSaaS) FAQs

## A Smarter, Simpler Way to Stay Secure

Securance's CSaaS offering identifies risks across your IT environment, maximizing coverage while minimizing costs.

### What is CSaaS?

CSaaS is a flexible, subscription-based service that delivers annual cybersecurity assessments tailored to your business. Whether you're a small business or a large enterprise, it offers expert guidance and measurable risk reduction at an affordable price.

### What's Included in the Standard CSaaS Package?

Our base package covers the five essentials every organization needs to identify weaknesses, reduce the likelihood of cyberattacks and lower cyber insurance premiums:

- External network vulnerability assessment and penetration test
- Internet-facing firewall configuration analysis
- Social engineering test
- Privileged user review (domain and enterprise application administrators)
- User provisioning review (1 critical enterprise application)

### Can I Customize my CSaaS Package?

Absolutely. You can tailor your package to align with your unique risks and priorities by selecting from a range of standard and advanced services.

#### Additional service options include:

- Wireless Network Security Assessment
- Disaster Recovery Plan Review
- Internal Network Vulnerability Assessment
- Database Security Review
- Tabletop Exercise
- Enterprise Application Security Assessment
- Incident Response Plan Review
- Router Configuration Review
- Switch Configuration Review
- Web Application Security Assessment

### What Makes Securance's CSaaS Different?

- **Real-World Expertise:** Our senior consultants have 20+ years of hands-on experience. You're supported by practitioners, not just advisors.
- **Plain-English Reporting:** Clear, jargon-free insights your stakeholders will understand.
- **Affordable:** CSaaS is available for a flat fee of only \$19,999 per year with a three-year commitment.

### Who Do We Work With?

We work with organizations across all industries, including:

- Defense
- Education
- Energy and Utilities
- Financial Services
- Healthcare
- Hospitality
- Insurance
- Manufacturing
- Retail
- State, Local, and Federal Government
- Technology
- Transportation
